

In-Service Rescue Squad Training

The PSTA will start the next in-service training in July and it will run into 2014. There is no didactic portion, only a 4 hour hands-on portion on the “hill”. It will cover basic stabilization, lifting, tool time and vehicle safety systems.

- In-Service will run 08:00-12:00 or 13:00-17:00 (please arrive on time)
- Please park along the curb. (See attached map)
- PPE: Helmet, Utility gloves, Eye protection, Steel toe shoes (**no shorts or PT clothes**)
 - Attendees may want to wear their 2nd set of gear and remove the inner liner to afford them abrasion protection. REMEMBER to assemble the gear properly after training and prior to wearing for daily operations.
- Please make sure everybody signs the attendance sheet to receive credit for the training. Officers should ensure that the training is recorded in Fire App, under activities.
- Any questions or concerns, please feel free to contact Captain J. Blake at jay.blake@Montgomerycountymd.gov
